

WEB APPLICATION PREVIEW:

The image shows a web application interface titled "Crime Prediction for Mumbai". The interface is centered on a dark background with a blurred image of wet leaves. The form contains four dropdown menus labeled "Gender", "Age Group", "Area", and "Place". Below these is a red and orange "Submit" button.

Crime Prediction for Mumbai

Gender
[Dropdown menu]

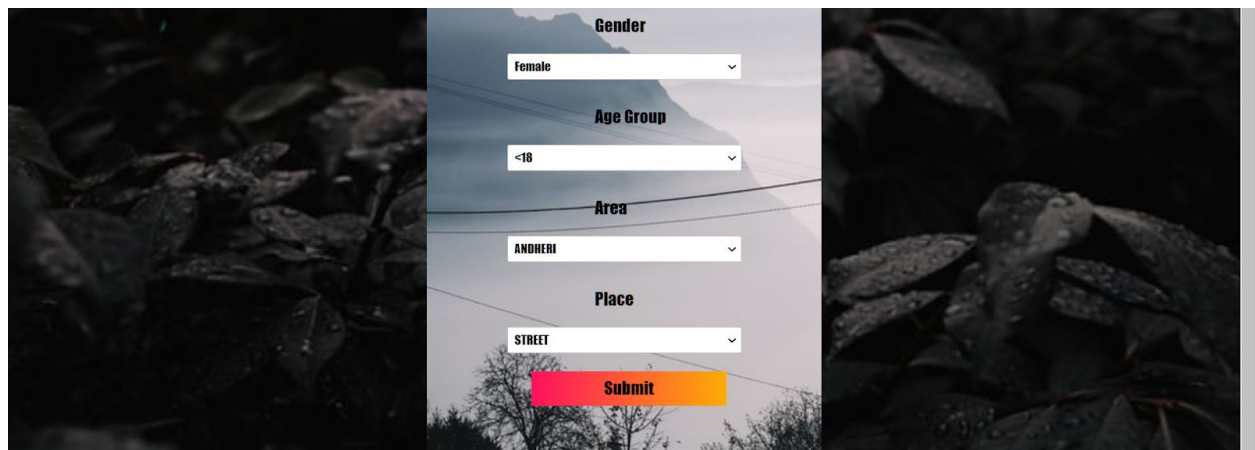

Age Group

Area
[Dropdown menu]

Place
[Dropdown menu]

Submit

INPUT:

The image shows the same web application interface as the preview, but with specific input values entered into the dropdown menus. The "Gender" dropdown is set to "female", "Age Group" is set to "<18", "Area" is set to "ANDHERI", and "Place" is set to "STREET". The "Submit" button remains red and orange.

Crime Prediction for Mumbai
